

# =PETITION=

We, the undersigned, call on our State of Wisconsin Elected Leaders and DNR employees to halt the planned slaughter of the entire deer herd in the Chronic Wasting Disease (CWD) target zone of western Dane, eastern Iowa and southern Sauk counties. We call for:

- more research on the distribution and transmission of CWD
- development of multiple solutions for CWD & Deer Herd management
- increase public input and participation in a Safe & Sane CWD action plan
